Alameda County

Grantee: Alameda County

Amount Awarded: \$59,431.00

Grantee Contact: Bruce Fritz

CalRecycle Grant manager: Linda Dickinson

Project Summary: The participating agencies request grant funding for collection and disposal of marine pyrotechnic signaling devices (marine flares). Marine flares will be collected from vessel owners during one or more days at one or more locations per jurisdiction. The marine flares will be packaged and shipped for destructive disposal in accordance with appropriate requirements. Collection at multiple locations will lower transportation costs and so lower total costs for all participating jurisdictions. Data will be gathered during the project toward an understanding of the scope of need for this service in the region and communities that most need the service.

Total Awarded for County:\$59,431.00

Butte County

Grantee: Town of Paradise

Amount Awarded: \$50,000.00

Grantee Contact: Ms Jennifer Arbuckle

CalRecycle Grant manager: Matthew Fong

Project Summary: This grant will expand Paradise's current HHW program by: 1) Expanding the facilities education and outreach efforts by; creating T.V. and radio ads on HHW dangers, local disposal options, and highlighting the HHW facilities new reuse program; manufacturing HHW themed interactive /educational kiosks for the HHW Reuse and Educational Center; and to send direct mailers to residents with HHW facility operational information, including a transport and disposal guide and calendar. 2) Purchase additional shelving and signage. Shelves will be used to store and display reusable items that are available to the public. Signage will display facility rules and guides 3) Purchase additional PPE for HHW facility employees, including gloves, Hazmat suits, boots, and vests. As well as provide annual 8 hr. HAZWOPER refresher training for HHW employees.

Total Awarded for County:\$50,000.00

Fresno County

Grantee: Fresno County

Amount Awarded: \$75,000.00

Grantee Contact: Michael Greenberg

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Grant to be used as a component of a multi-faceted approach promoting sustainability to the County and its 15 jurisdictions through continued EXPANSION of the program to cost-effectively promote/facilitate a significant increase in the amount of HHW managed within the HHW Collection System which is made up of a Permanent HHW Facility and approximately 300 Network Host Sites (Network Sites) throughout the County's ~6,000 sq. miles, serving a population of about 1 million. The grant funds will be directly used for the HHW disposal cost portion of setting-up and operating various separate temporary/mobile collection programs servicing at a minimum 100 participants each, in the remote areas of the County (includes about 45% of the population or roughly 450,000 residents) which through surveys were found not to regularly use the Permanent Facility. The County and its jurisdictions are in full support of this project and thus the remaining mobile collection tasks such as advertising, registration, permitting, planning, set-up, and operations will be self-funded.

Total Awarded for County:\$75,000.00

Kern County

Grantee: Kern County

Amount Awarded: \$75,000.00

Grantee Contact: Denise Saucedo

CalRecycle Grant manager: Annabel Farrall

Project Summary: Kern County operates three Permanent Household Hazardous Waste Facilities which includes locations at Metro Bakersfield, Ridgecrest and Mojave. The sites are operational year round and enjoy usage from many residents and businesses within our communities. An area of concern has been the unlawful entry and illegal disposal of hazardous waste at our facilities when closed for operating hours. We are proposing to upgrade/enhance our current security system to include increased visual monitoring, high resolution and zoom capability. The proposal includes enhanced technology and all three sites on the same server which will provide greater visual monitoring capability, ease of maintenance and reliability.

Total Awarded for County:\$75,000.00

Lake County

Grantee: Lake County

Amount Awarded: \$21,437.00

Grantee Contact: Kati Galvani

CalRecycle Grant manager: Linda Dickinson

Project Summary: Lake County Public Services Department will work collaboratively with Lake County Waste Solutions and South Lake Refuse and Recycling to bring consistent hazardous waste drop offs to two convenient locations for all Lake County residents. If approved the grant will provide public education, Personal Protection Equipment and Hazwoper training so these HHW events can occur safely.

Total Awarded for County:\$21,437.00

Los Angeles County

Grantee: City of Lancaster

Amount Awarded: \$49,730.00

Grantee Contact: Jocelyn Swain

CalRecycle Grant manager: Harnak Samra

Project Summary: The City of Lancaster is proposing utilize HD27 grant funding to expand its hazardous waste collection facility by purchasing a portable hazardous waste analyzer. This single piece of equipment will greatly reduce the time spent identifying unknown substances and provide more efficient operations in our facility. With the quick identification of unknown hazardous waste staff will be able use their time more effectively and expedite handling, packing, and shipment of the hazardous wastes.

Grantee: City of Palmdale

Amount Awarded: \$50,000.00

Grantee Contact: Kristin Holloway

CalRecycle Grant manager: Harnak Samra

Project Summary: The City of Palmdale is located in the northeastern portion of Los Angeles County and has a population of over 152,000 residents. Palmdale has a relatively large population but a low population density. The city seeks grant funds to establish eight household hazardous waste (HHW) collection events. Four events will take place at the city maintenance yard and four events will be at city parks located in underserved and rural areas of the city for the collection of universal and electronic waste. A certified electronic and universal waste collection company will be contracted who will properly manage the disposal of the HHW items. The timeframe is June, 2016 to June, 2018

Grantee: Los Angeles County

Amount Awarded: \$75,000.00

Grantee Contact: Tranette Sanders

CalRecycle Grant manager: Jill Hayashida

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: The County of Los Angeles Department of Public Works is partnering with the Sanitation Districts of Los Angeles County to launch a multi-language public education and outreach campaign to educate residents of the environmental impacts of household hazardous and electronic waste, inform them of the importance of properly disposing this waste, and promote existing diversion programs currently available. Various media outlets and outreach methods will be used to convey the messages. In addition, two additional temporary household hazardous waste collection events will be held in low attended communities within the County to encourage participation in the Household Hazardous Waste Management Program.

Total Awarded for County:\$174,730.00

Mendocino County

Grantee: Mendocino Solid Waste Management Authority

Amount Awarded: \$74,011.00

Grantee Contact: Louisa Morris

CalRecycle Grant manager: Linda Dickinson

Project Summary: Rapidly increasing participation at our fixed PHHWCF has increased pressure on our budget. Vehicle count at the PHHWCF increased from 2,619 in 2014 to 3,062 in 2015. This is in addition to our mobile collections. Construction of our new facility in 2012 (with CalRecycle support) created a debt burden which also impacts our budget. We also are seeking to increase safe public disposal of medications, sharps and general HHW.

Our program started operations in 1996 and important equipment needs replacement. Our grant request would cover essential equipment replacement, new safety equipment, and targeted public education through print media and Facebook.

Total Awarded for County:\$74,011.00

Placer County

Grantee: City of Lincoln

Amount Awarded: \$15,000.00

Grantee Contact: Angela Frost

CalRecycle Grant manager: Matthew Fong

Project Summary: The City of Lincoln does not collect household hazardous waste (HHW) material. Products such as paints, cleaners, oils, and pesticides need to be taken directly to the Western Placer Waste Management Authority (WPWMA) HHW Facility for disposal. This is a free service to all residents provided by the County. The City receives many calls throughout the year from residents inquiring about HHW items and their proper disposal. The City wants to bring greater awareness to all residents regarding the collection of HHW at the local WPWMA facility. In an effort to increase public awareness about HHW, the city plans to use an existing event to promote the proper disposal of HHW. Each year the city hosts an annual spring cleanup event on the weekend that garnishes old household items that would normally be taken to the landfill. Many residents attend this event because they can dispose of unwanted items like old mattresses and furniture they no longer need. At this event, the city plans to distribute a HHW flyer to each resident educating them on the identification of HHW items and their proper disposal. The City will also increase awareness about the local HHW program through other means of communications.

Total Awarded for County:\$15,000.00

Riverside County

Grantee: City of Indio

Amount Awarded: \$50,000.00

Grantee Contact: Sara Toyoda

CalRecycle Grant manager: Barbara Baker

Project Summary: The funds will be used to hold up to three temporary household hazardous waste collection events and to educate the public about household hazardous waste and the its proper disposal.

Grantee: City of Palm Desert

Amount Awarded: \$24,072.00

Grantee Contact: Ms. Frankie Riddle

CalRecycle Grant manager: Barbara Baker

Project Summary: Minor improvements and equipment replacement to permanent HHW facility.

Grantee: City of Riverside

Amount Awarded: \$50,000.00

Grantee Contact: Olivia Sanchez

CalRecycle Grant manager: Barbara Baker

Project Summary: The City of Riverside Public Works Department- Solid Waste Division is responsible for solid waste collection and coordinating clean up events held in the City. The City of Riverside has approximately 316,000 residents. To ensure a clean environment the City developed a comprehensive collection event program, Clean-Up Riverside's Environment (C.U.R.E.), to address issues ranging from bulky item disposal to the proper disposal of specific household hazardous waste materials. The City hosts two events for residents to properly dispose of their expired batteries and compact fluorescent tubes (CFLs) at the Public Works Corporation yard. These collection events are coupled with e-waste collection, document destruction, and bulky item collection and were designed to glean hazardous materials from the waste stream. Events occur in February and October. Items accepted at the collection events include fluorescent tubes, compact fluorescent lights and household batteries. In 2015, the C.U.R.E events collected over 5000 lbs. of batteries and lamps. Other hazardous waste programs for City residents include the permanent Agua Mansa HHW Collection facility located in Riverside and operated by the County of Riverside. Additional HHW programs also include sharps collection at three City fire stations in addition to the Agua Mansa HHW Collection Facility. The C.U.R.E program and other HHW collection components are fully funded by the City of Riverside.

The City is applying for the Household Hazardous Waste Grant Program 27th Cycle (HD 27) in order to further develop HHW public education, promotion, and outreach and utilize funding for the proper disposal of battery and CFLs collected at our C.U.R.E events. Public education/promotion and outreach would include electronic and printed utility bill inserts, signage for residential trucks promoting collection events, signage at C.U.R.E events, street banners promoting the C.U.R.E events and proper HHW disposal educational materials provided to residents at City sponsored events. The funding will also be utilized for a Hazwoper re-certification training for three existing employees that work the C.U.R.E events collecting HHW from the public.

The City of Riverside is applying for the maximum amount for the small project grant, \$50,000.

Total Awarded for County:\$124,072.00

Sacramento County

Grantee: City of Citrus Heights

Amount Awarded: \$50,000.00

Grantee Contact: Shawn Campbell

CalRecycle Grant manager: Ashraf Batavia

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: The City of Citrus Heights will conduct public outreach and education to residents about the importance of proper disposal of Household Hazardous Wastes (HHW), what constitutes HHW, and of the availability of temporary collection events for residents. This project represents a dramatic expansion of the public education and outreach programs associated with the previous collection events. The project will promote the last event of 2016 on October 15 and all three collection events in 2017.

Grantee: City of Folsom

Amount Awarded: \$50,000.00

Grantee Contact: Mr. Mark Rappaport

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Replace fork lift with new or used diesel model, purchase floor cleaning machine, postage for outreach.

Grantee: City of Sacramento

Amount Awarded: \$50,000.00

Grantee Contact: Tyler Stratton

CalRecycle Grant manager: Ashraf Batavia

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: The Recycling and Solid Waste Division is seeking this grant to fund the installation of an awning at the Permanent Household Hazardous Waste Collection Facility (PHHWCF) to protect residents and workers from inclement weather and mitigate water pollutant runoff while properly disposing of HHW.

Facility improvements to the PHHWCF will ensure that it will continue to operate in a safe and clean manner, and have the capacity to process and store the waste it receives from the public.

Total Awarded for County:\$150,000.00

San Diego County

Grantee: San Diego County

Amount Awarded: \$50,000.00

Grantee Contact: Melissa Porter

CalRecycle Grant manager: Barbara Baker

Project Summary: San Diego County proposes to utilize HD27 grant funds to sponsor one (1) moderately large one-day household hazardous waste (HHW) collection facility events (THHWCF) in an under served area of the unincorporated County of San Diego. The event will be held in the Fallbrook area, which has a moderately large population and is quite distant (over 40 miles) from the nearest County HHW collection facility. The event expected to serve at least 600 households, based on previous events conducted in the area. The last event in the area was in February 2014 and served over 560 residents.

Total Awarded for County:\$50,000.00

San Luis Obispo County

Grantee: San Luis Obispo County Integrated Waste Management Authority

Amount Awarded: \$75,000.00

Grantee Contact: William Worrell

CalRecycle Grant manager: Annabel Farrall

Project Summary: to be added

Total Awarded for County:\$75,000.00

Santa Clara County

Grantee: Santa Clara County

Amount Awarded: \$75,000.00

Grantee Contact: Mr William Grimes

CalRecycle Grant manager: Linda Dickinson

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: The proposed project will expand our existing fluorescent lamps & batteries retail take-back program. We will translate to Vietnamese an existing whiteboard video that encourages the recycling of these wastes through the take-back program. It'll be aired on Vietnamese TV & radio.

Total Awarded for County:\$75,000.00

Stanislaus County

Grantee: City of Modesto

Amount Awarded: \$50,000.00

Grantee Contact: Ms. Michele Beck

CalRecycle Grant manager: Ashraf Batavia
Project Summary: Grant Funds to support Mobile Household Hazardous Waste Events within the City of Modesto

Total Awarded for County:\$50,000.00

Tehama County

Grantee: Tehama County Solid Waste Management Agency
Amount Awarded: \$75,000.00
Grantee Contact: Rachel Ross
CalRecycle Grant manager: Matthew Fong

Project Summary: CalRecycle has edited the following summary to reflect the approved grant project: The Tehama County Solid Waste Management Agency 27th Cycle Household Hazardous Waste grant will fund the development of a new program to increase the use of refillable propane cylinders. Funding will also be used to hold temporary collection events to collect and properly dispose of single use propane cylinders, as well as refresher HAZWOPER training for Agency staff.

Total Awarded for County:\$75,000.00

Ventura County

Grantee: Ventura County
Amount Awarded: \$27,863.00
Grantee Contact: Mr. Bruce Belluschi
CalRecycle Grant manager: Annabel Farrall

Project Summary: The Ventura County Pollution Prevention Center is a 34 year old facility that has served as the County's fully-permitted HHW facility since 2001. In that time, nearly 3 million pounds of HHW has been collected and managed with an average of 1,100 residents and qualifying small businesses served annually. Due to time and use, many minor repairs are needed with a total repair cost of \$ 27,863.00.

Total Awarded for County:\$27,863.00

Grant Count: 22**Grand Total for Selected Counties: \$1,171,544.00**
